

SIXTH ASSIGNMENT (March 2)

TITLE AND CREDITS

Title at the beginning of the video:

TITEL DES FILMES

Find a good title that describes what your story is about - you may want to choose a word or shorter title first, and then add a descriptor. For example:

Chicago auf Deutsch:

Ein Spaziergang durch deutsche Quartiere

Think about how your title should appear; Fade in/fade out? In the center? Form above/below? You could add the title over some of your footage - or - you could cut to black.

Then add the following information:

ein Film von
gedreht von
produziert von

a film by
directed by
produced by

Credits at the end of the video:

You could add the credits over some of your footage - or - you could go to black. You may want to have some music with the credits. Most of the time, rolling credits look the best.
